# ABOUT PRIME TRADES

Marty Schwartz, a prosperous trader with an estimated net worth of \$1.5 billion, is renowned for his trading strategies and ability to yield consistent returns over extended periods. Schwartz's expertise spans swing trading, day trading, and trend following. He began his career as a financial advisor in the early 1980s before transitioning to trading and subsequently founding his hedge fund, Market, in the 1990s.

Schwartz successfully managed the fund, generating returns exceeding 20% for several years. Through trading, he transformed a \$100,000 portfolio into \$2 million in a mere two years. Schwartz emphasizes the crucial role of discipline and patience in trading. He underscores the importance of having a trading plan, a passion for trading, and a drive for success.

Marty Schwartz's advice for Forex traders: "The key to trading success is emotional discipline. If intelligence were the key, there would be a lot more people making money trading... I know this will sound like a cliché, but the single most important reason that people lose money in the financial markets is that they don't cut their losses short"
